SECURE DOCUMENT DESTRUCTION

Servicing over 500 customer locations on a monthly basis, Opportunity Village PaperPros is one of the largest document destruction providers in Nevada. Our portfolio of customers includes businesses in the gaming, banking and finance, and government industries. At our facility, we shred over 15 tons of paper each day. Once we shred this paper, it is baled and sent to a recycling facility where it is fully repurposed into new paper products.

OWN OR OPERATE A BUSINESS THAT COULD BENEFIT FROM SHREDDING?

Interested in hosting a shred event at your business, residential, community, school, spring cleaning fundraiser or other function? Reserve the Opportunity Village PaperPros plant-based truck for a minimum of three hours, with document collected onsite in secure bins and transported to our facility for shredding. Pricing starts at \$400 for 3-hour rental.

We offer convenient, ongoing, regularly scheduled services along with one-time pickups for both commercial and residential locations. Pricing starts at \$34 for ongoing services, with introductory rates for one-time pickups starting at \$65.

AAA NAID Certification

DOCUMENT IMAGING

HOW DO YOU HANDLE HARD COPY DOCUMENTS AND FILES?

Paper is expensive, takes up room, it's easily destroyed, misfiled and misplaced. Our digital conversion and imaging solutions help convert your paper to digitized format so you can preserve, secure and easily access your business documents, increasing efficiency and maximizing office space.

We currently process and scan over 1.5 million documents each month. Additional services include daily material pickups, processing timelines as soon as 24 hours, and document request pulls with same-day delivery.

PaperPros offers both ongoing and one-time document imaging services, with a host of Nevada's major corporations and government offices included in the ranks of our many satisfied customers.

A highly lauded technology aiding in organizational efficiency and growth, our imaging capabilities include conversion of paper documents, receipts, large scale plots and maps, microfilm, and microfiche conversion. Add-on offerings are also available for ultimate ease, and range from document preparation, customized indexing for quick and simple searches, and OCR functionality. PaperPros offers conversion to both cloud-based software or external device uploading:
